

1. Capacity Reduction on O365 Mailbox

New License O365 type

Check the mailbox size on Outlook

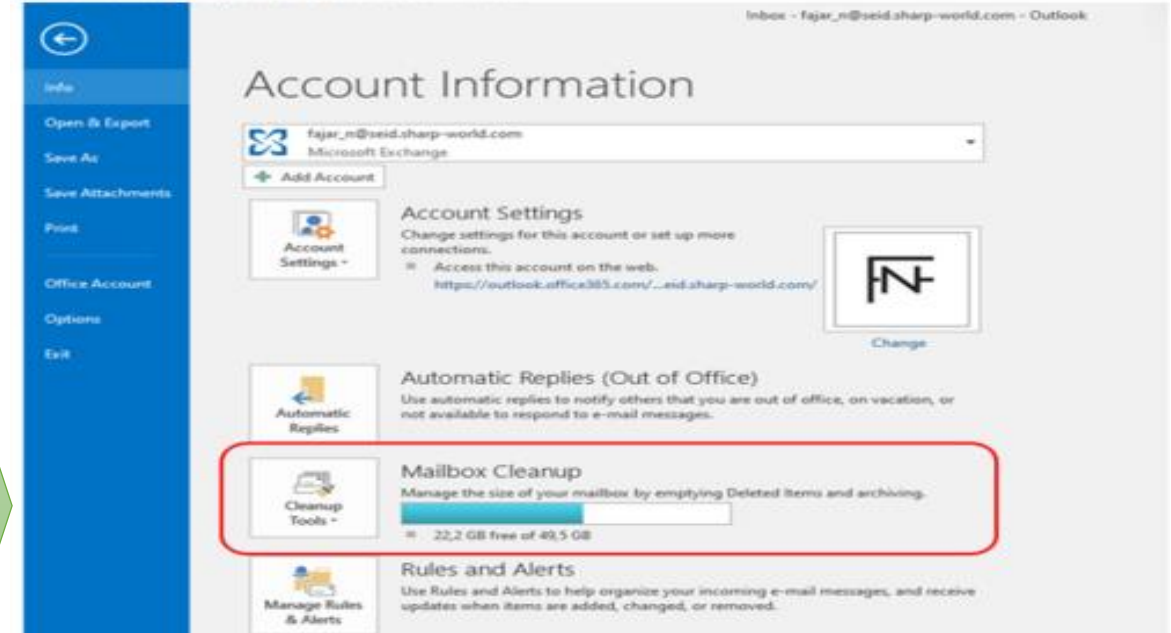

Open Outlook

Klik File

Storage
Capacity

At Mailbox Clean Up check total size of mailbox

- If the mailbox size 50GB, it safe to continue using outlook
- If the mailbox size 100GB and usage more than 50GB, users need to reduce the mailbox

SmarterMail
mail server

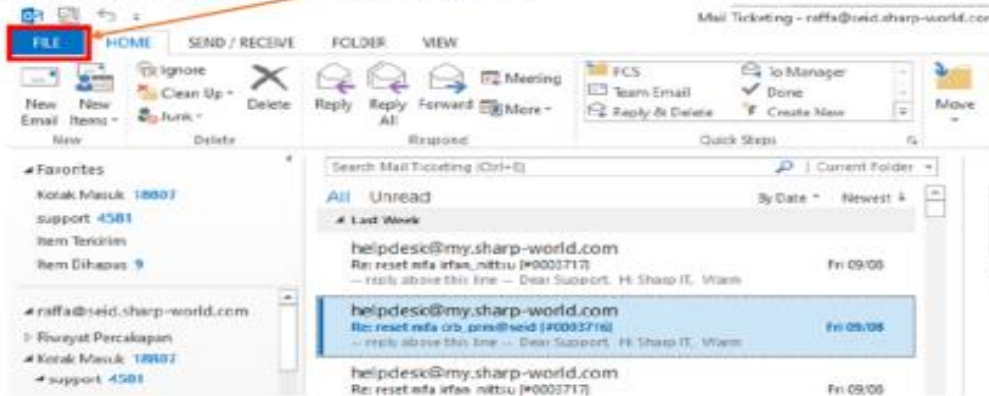

2. Backup .ost outlook file to .pst

Manual backup ost to pst dengan fitur archiving pada outlook

A. Manual Archiving

1. Pada email outlook klik menu **File** pada pojok kiri atas.

2. Lalu Pilih **Info** → Klik **Cleanup Tools** → Klik **Archive**

3. Pada Menu **Archive** untuk Auto akan kita bahas di halaman selanjutnya, saat ini kita manual **Archive** dahulu, pilih **archive this folder and subfolder** lalu pilih mana folder yang akan di archive jika mau keseluruhan pilih **alamat emailnya**.

Tentukan waktu file email yang akan di archive misal dari 30 April 2023 maka yang akan terbackup / menjadi archive pst dari april 2023 ke belakang (2023 → 2022 → 2021)

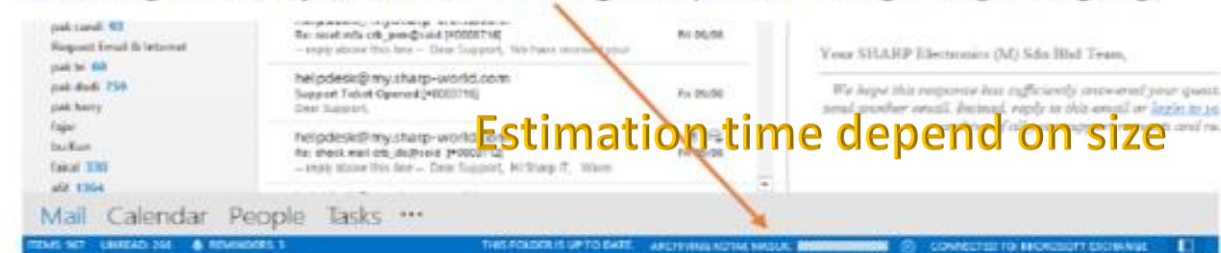

Tentukan Lokasi archive pst nya → klik **Browse** untuk menentukan lokasi file penyimpanannya, biasanya disatukan dengan file email ost di local Disk D:\email\

Jika sudah Klik OK

4. Jika sudah Klik **Back** / Tanda **Panah ke Kiri** di pojok kiri atas.

5. lihat di bagian bawah, jika ada tulisan **archiving** maka proses archiving sedang berlangsung

Estimation time depend on size
